Product Features

Lugs made from robust cast material

The claws and lugs are made from a robust cast material. Their slim design and chromed high-gloss look give the instrument i...

Multi-ply maple shell

A special coating of the shell inside optimizes the vibration behavior. The sound gets richer and the drum is gaining volume.

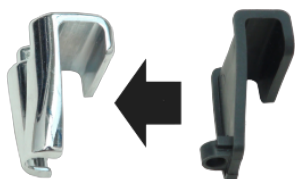

Protegos

Sunk-in Tension Screws All tension screws are sunk in the claw hooks. This avoids injuries while playing and prevents...

Integrated screw-lock

A built-in rubber ring helps preventing an automatic loosening of the screw. Also at aggressive playing style.

Rim protectors

A thick lining of hard rubber insulates claws and rims. This protects the valuable lacquering of the rims.

Stainless steel carrying hooks

Of course the hooks are made from very resistant stainless steel.
