Army music corps might have the highest demands to their instruments: a concise-sharp metal shell sound with short, dry tone and precise response and a robust quality coupled with high quality workmanship.

However, using modern equipment is not only an aim of the army, and is also demanded in music corps: Concerning marching drums this means - besides all these tonal characteristics - in any case greatly reduced weight. For this reason Lefima has developed the „Dry Force“, a drum that combines all demanded tonal features in one instrument, but it weighs less than half of conventional models.

Design features

Non rusting ultra-light built metal shell with brushed finish or a high-value chrome look, chromed triple-flanged rims, light strainer #ZA-ABH-0467-000, ring muffler, snap-on multi-angle carrying bar #8850-U (stainless steel), extra padded leg rest of the 600-series (stainless steel), tuning key

Some product mages show additional equipment. For serial equipment click on the tab “Equipment”!
