Tonal and visual beauty are inseparable. For this reason we have developed the Ultra-light Deluxe - specifically for the high level of sinfonia brass music.

Because of the birch wood, the drum has an incredibly loud bass, but simultaneously a very soft, warm, projecting sound. This is reflected in a noble natural wood appearance, whose descant is composed by the highlights of polished chrome fittings. The shell of the Ultra-light Deluxe is covered with a very low-maintenance film that looks real wood deceptively similar. Its surface has a special hard coating that reliably reduces scratching.

Design features

Ultra-light built waterproof bonded hardwood shell with walnut scratch resistand foil and desiner rims, in claws sunk-in tension screws, 2 ring mufflers, 4 stainless steel carrying loops, tuning key
