Detailed information can be found at www.lefima.de

Lefima started the beginning of the 21st century with their ultra-light drums, followed by a line of various drum types, which set completely new benchmarks within the field of marching percussion.

The use of alternative materials and a unique lug technology contributed to a new generation of marching drums with such low weight that they were honored in the Guinness Book of Records! Because of the reduced mass attached to the shell, these instruments have tremendous power and strength that make them ideal for playing outside. The sensational low weight is combined with modern lug technology with optimum dynamic articulation.

Design features

ultra-light built waterproof bonded plywood shell, chromed triple-flanged rims, light strainer #ZA-ABH-0467-000, removable ring control, snap-on carrying bar (stainless steel), extra padded leg rest of the 600-series (stainless steel), tuning key
This drum series is not made for higher head tension.
