

Item-#: HT-RST-

Detailed information can be found at www.lefima.de

Medieval markets and contemporary re-enactment became very popular during the last decade. Remakes of clothing and arms accompany replicas of musical instruments.

These medieval rope tension drums are principally based on examples from the 12th century. They have no rims and are tightened by leather tensioners. The shells are made from birch, one of the best tonal woods ever.

Design features

waterproof bonded plywood shell in antique walnut, genuine hemp rope, genuine leather tensioners in antique appearance
